MEDIA ALERT: S3 to Moderate Zero Trust Webinar
“Easy Preparation Steps for Adopting Zero Trust”

Live webinar on July 27 to discuss implementing Zero Trust strategy

ALPHARETTA, GA – July 21, 2021 – [Strategic Security Solutions](#) (S3), the leading provider of information security consulting services for identity and access management (IAM), governance, risk and compliance, and SAP Security, will be moderating a webinar hosted by [SecZetta](#) on adopting a Zero Trust model based on President Biden’s Executive Order (EO). With ransomware attacks and breaches becoming more frequent and affecting more lives than ever before, this panel will discuss the real-life impact of these attacks and ways to combat them with a Zero Trust model.

WHAT: The panel will address best practices for federal and private organizations, including mapping out the process and discussing common blind spots related to Zero Trust. Specifically, attendees will learn:

- Best practices for federal organizations mapping out their Zero Trust journey
- Common blind spots for organizations related to Zero Trust
- How to approach identity and access management
- President Biden’s Executive Order and other regulations around cybersecurity

WHO: Speakers will include:

- [Johanna Baum](#), Founder and CEO, Strategic Security Solutions (moderator)
- [Rear Admiral Mike Brown](#) (Ret.), Board Member, Strategic Security Solutions (panelist)
- [Frank Briguglio](#), Global Public Sector Strategist, SailPoint (panelist)
- [David Pignolet](#), Founder and CEO, SecZetta (panelist)

WHEN: July 27, 2021 at 1:00 p.m. EDT - 2:00 p.m. EDT

WHERE: Learn more and register for the webinar [here](#).

WHY: As attacks on public and private organizations become more frequent, cybersecurity experts need to ensure maximum security while continuing to provide access. While President Biden’s EO was a step in the right direction, no amount of orders or laws will be enough to erase all vulnerability sought after by criminals. Ensuring that a Zero Trust model is correctly incorporated is critical to protecting the organization, its workforce, and its clientele’s information.
