

Strategic Security Solutions Bolsters Leadership with Addition of Scott Egan as Director of Strategic Services and Customer Success

Seasoned identity and cybersecurity expert joins company to lead customer success program for growing global customer base

ALPHARETTA, GA – August 3, 2021 – [Strategic Security Solutions](#) (S3), the leading provider of information security consulting services for identity and access management (IAM), governance, risk and compliance, and SAP Security, today announced that Scott Egan joined the company as director of strategic services and customer success. In his role, Egan will be responsible for leading and implementing customer success programs to enhance and extend the customer lifecycle including design and development, adoption, advocacy, and retention. In addition, he will also lead and guide IAM and identity and access governance (IAG) deployment efforts across the customer base.

With over three decades of experience, Egan will serve as a key leader by demonstrating successful client service delivery, mentorship, education and learning initiatives, performance management, and overall organizational success for the company. His appointment confirms the company's continued commitment to support its customers and partners by providing top-notch service and maximum value.

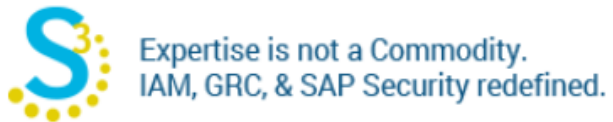

“With today’s growing threat landscape and evolving organizational security challenges, it is imperative to understand our customers’ end-to-end needs and solve the right problems that work for their people, processes, and goals,” said Johanna Baum, CEO and founder, S3. “Scott’s industry knowledge coupled with passion for people makes him the perfect addition to lead our customer success program to turn any risk into reward”

Prior to joining S3, Egan served in a consulting role at Optiv Inc. Before Optiv, he held leadership roles including global director of customer success at Avid Technologies, senior manager of technical support, at RSA, and was on the O365 Initial Deployment Team at Microsoft. Additionally, he was the team lead at Sun Microsystems collaborating with Sun’s largest and most strategic clients. Egan holds a bachelor’s degree in technical management and a master’s degree in international business from Southern New Hampshire University.

“I am excited to join S3 as director of strategic services and customer success during this critical time for organizations across industries,” said Egan. “S3 has a strong reputation and deep commitment to its customers and I look forward to continuing to expand on this success and support the needs of our customers today and into the future.”
